HAMLIN, JONES COUNTY, TEXAS, FRIDAY, AUGUST 21, 1942

NUMBER 42

The Spotlight Rests On Texas Voters Again

"JUDGE" JAMES V. ALLRED

SENATOR W. LEE O'DANIEL

According to "newspaper" reports of the votes in the First Primary, the official count gave Senator O'Daniel 475,541; Judge Allred 317,501; Governor Moody 178,471; and Mr. Ryan 12,213. (About all any of us know is learned out of newspapers, and we assume that these figures are accurate).

The main question now is—who will get the big bulk of the 190,684 votes that were cast for Moody and Ryan? The answer should be known by 11:00 P. M. Saturday night unless the count is so close that days will be required to get the final result. This was true you remember last summer in the race between Mr. O'Daniel and Congressman Johnson.

Those who are hot for Mr. O'Daniel think he will get again all he got in the First Primary, and enough of the Moody-Ryan vote to put him up in the clouds. And on the other hand, the Allred supporters assume that Mr. O'Daniel gathered his crop the first "pick'n". And the question still remains—who will get what?

It would do no one any good for a small town paper to set forth any discussion as to why it thinks this one or that one should be or should not be elected, for as a matter of fact, not one tenth of one per cent of the persons who voted for either O'Daniel or Allred will change their minds. As for the 190,000 who voted for Moody and Ryan, will say, "I'll vote for this one, because I do not want that one."

It is immaterial whether the vote this Saturday is as large as it was in the First Primary; the percentages will likely measure out the same. However we believe there will be a great vote Saturday.

There is no use in anyone saying "It makes no difference with me who is elected". One may think that way but it does not make it so. To be a safe voter one must be liberal in giving every angle due consideration. It does no good to listen to nonessentials.

Get In Navy

An urgent call for men interested in radio work was issued today at the U. S. Navy Recruiting Station at Abilene.

Operators, repair and service men and technicians between the ages of 17 and 50 years are especially wanted for enlistment in petty officer ratings with beginning pay ranging from \$78.00 to \$96.00. Inexperienced men between the ages of 17 and 28 years may be enlisted as apprentice seamen with beginning pay of \$50.00 and, if qualified in accordance with standards for entrance in Navy service schools, be assigned to Navy radio school upon completion of recruit work. Men who fail to qualify for or in radio school will be retained in the naval service in rating and pay in which qualified to hold.

All enlisted men of the navy receive 20 per cent addition to base pay for sea service or foreign duty. Married men are also allowed extra pay for their family.

Mr. and Mrs. Henry Albritton and Mr. and Mrs. Dickey Ferguson returned Monday night from an extended trip in New Mexico, El Paso and of course they crossed the Rio Grande. Ruidoso, the Caverns and other places caught their attention.

T. H. Price Died Here Thursday, August 13

T. H. Price, one of Hamlin's best loved citizens was claimed by death at 1:00 P. M., Thursday, August 13, following a prolonged illness and suffering.

Mr. Price was born in Morgan County, Alabama, August 9, 1865 and was 77 years and four days of age. He is survived by his wife and one son, the Rev. John W. Price, Methodist pastor at Friona, Texas, and a daughter, Mrs. Forrest Holliday, Cuero, Texas, and two step-daughters, Mrs. M. C. Smith, Dallas, and Mrs. Bud Autrey of Marietta, Okla., and a step-son, Roland Thompson, Electra.

All of the mentioned relatives were here for the funeral except Mr. Thompson.

The deceased had lived in Hamlin the past ten years. He was a man who loved the best things in life. He made friends with all he met. He followed the trade of mattress making most of the time he lived in Hamlin and was able to work. He was a devoted husband and father and a consistent Christian, a member of the Methodist church. Mr. Price had resided in San Marcos 20 years, and later in Abilene where his first wife died, and later in Wichita Falls and Vernon. In all these places the testimony was that he was a good man, which is the highest any one may want to leave in this world.

Funeral services were conducted by the pastor, Rev. Harrell at the Methodist church Friday afternoon, in the presence of many friends.

Interment was in Hamlin's East Cemetery under the direction of the Barrow Company.

August 21, 1:00 P. M.
—Listen In—

Roy A. Dillard's Cotton Is Hamlin's First Bale

August 20, will be the date of Hamlin's first bale of 1942 cotton. Roy A. Dillard is the lucky man. He farms southwest of Hamlin in Jones County.

The Pioneer Gin handled this bale, and as usual, their contribution is free ginning, about 18c for the cotton and \$45 per ton for the seed.

Hamlin business men will contribute nice premiums. The cotton coming in about noon Thursday, it was hardly possible for the Chamber of Commerce to make a report on the premiums. Listen for next week.

Comfort Kits For Our Fighting Men

As American doughboys set sail for foreign lands, Red Cross comfort kits are presented to each fighting man, symbol of interest and concern of those back home. Jones County Red Cross Chapter has just accepted assignment of fifty comfort kits monthly, and is asking county co-operation by individuals, church, civic and social organizations towards purchase of fillings for kits. Methodist Dorcas Class at Stamford will contribute contents for one bag each month.

Khaki bags are made in county production room, and are filled with stated items, averaging about one dollar in price, and dollar pledges are welcomed from individuals or groups. Kit contents are: double edged razor, soap in plastic box, writing paper and envelopes, cards, book, sewing kit, gum, pencil, shoe cloth, cigarettes.

August shipment is now being prepared. Contributions may be directed to Mrs. L. M. York, production and volunteer service chairman, Stamford.

Mrs. Tom Routh returned last Friday from Fort Worth where she had been called by the death of her mother, Mrs. H. C. Rothel, age 64, who died on August 1. The Rothel family were pioneers of Hamlin and lived here a number of years before going to Fort Worth.

Mrs. Joe Norwood (former Gladys Davis) is at home for a visit with her parents, Mr. and Mrs. E. C. Davis. Mrs. Norwood's husband is a soldier in the 36th Division, now moving into Camp Edwards, Mass.

Bobby Barrow who has been working in the oil fields near Houston, is here to spend a short vacation with his parents, Mr. and Mrs. R. Y. Barrow, before returning to Houston to enter Rice University.

Ben S. Ferguson Jr. of Dallas came over Monday to visit during the week here with his grandmother, Mrs. B. S. Ferguson. He is a member of the Texas Home Defense Guard of Dallas. He wears regulation uniform but is too young to be a soldier yet.

(42-2P)

The Herald Must Go Out Earlier

From now on the Herald will go to press on Thursday afternoons in time to get the papers mailed on the West bound Santa Fe. This means a lot to the people of Fisher County. Bear in mind that we will not use copy sent in too late. Don't wait if you have something to go in the Herald. The sooner we get it the better. Subscribers of McCaulley, Sylvester, Longworth and Sweetwater may expect their Herald on Friday, instead of Saturday as in the past.

Let's Throw Our Old Iron At The Nazi-Japs

By the end of this week, all readers of newspapers should know that a new plea is going up for every ounce of scrap iron that can be found about the homes of the American people.

Now this is no idle talk. It is a call for actual metal that has been discarded about our homes to be brought in so that our industries may continue to build and build machines to stop the Japs and the Germans and all else who may seek to destroy our form of government.

Look about again, see if there is not some more stuff that you can sell, or give away. Every type of metal, nut, bolt, any weight, any size, will be good stuff to throw at the Japs.

It is easy to remember a few years ago when hundreds and thousands of car loads of scrap iron were gathered here in "innocent, unsuspecting Texas" to be carried to Japan to wham back at us, and look, what they are doing right this very minute. Buddy, you can't laugh this off. We got to make up for our

"honesty of purpose" and let 'em have the balance, either through guns, tanks, planes, shot and shell, or they will come over and help themselves to the best we have now that we think we can not do without. This is not idle talk buddy!

The set-up for receiving and handling the scrap iron is now at hand, the same that was used a few months ago. Old iron is not bringing as much as it did, but it matters not. Most people will give what they have and not dream of pay. Some will want pay and if so it is OK. The Pioneer Gin Co. is doing a lot of work free, and will give you the market price for your iron. Now suppose some one has some old iron, just a small bit, and no way to get it to the place . . . just call No. 63, the Chamber of Commerce and a wagon will call for it. But we do not know about the weighing, and the pay unless one will forget about that.

Listen for next week. Saturday, August 29 is Scrap the Japs Rally Day. That day a lot of stuff should be whamed at 'em.

BAPTIST CHURCH

One of the outstanding pastors of Seattle, Washington, recently said: "The church must be kept going in high gear to help people keep a balance and poise in the midst of confusion and bitterness. Any one who gives himself to make the church strong and effective during the period of war will be rendering an inestimable patriotic service to his country and his generation. The church is one of the necessary factors in developing and maintaining the moral character of a people. When the church goes down, the moral tone also goes down. You cannot let the church suffer without injury to the total structure of society."

The First Baptist church is seeking to launch out by faith in a program which will at least partially meet the challenge of this hour. With the whole-hearted co-operation of Baptists, together with the good will of all good people in our community, we believe that this church can render service in this community which will be more than vital during this crisis in our history.

We invite you to all our services.

H. E. East, Pastor

Parker May came down from Denver, Colorado last Sunday to visit his parents, Mr. and Mrs. M. P. May, while on his way to Dallas. Parker is in the Farm Security Administration Dept., and he is checking division offices over the country.

METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School at 9:45, A. M. Morning service at 11:00 o'clock will be conducted by Mrs. Gordon Bennett, who will bring a Missionary Message.

Juniors, Intermediates and Young People meet at 8 o'clock.

There will be no evening service since the pastor is still in a revival meeting at Lorenzo.

NAZARENE CHURCH

On last Sunday only one person out of eight in Hamlin attended Sunday School, and a fewer number attended church. Where were you?

With the foundation of our civilization, which is Christianity, in the balance, is it not time you and I were doing something about it?

Go to church next Sunday, and every Sunday and worship God.

Sunday School, 9:45 A. M. Morning Worship, 11 A. M. N. Y. P. S., 8:30 P. M. Evening Worship, 9:00 P. M. Mid-week Service, Wednesday at 8:45 P. M.

Come worship with us.
Dan D. Jones, Pastor

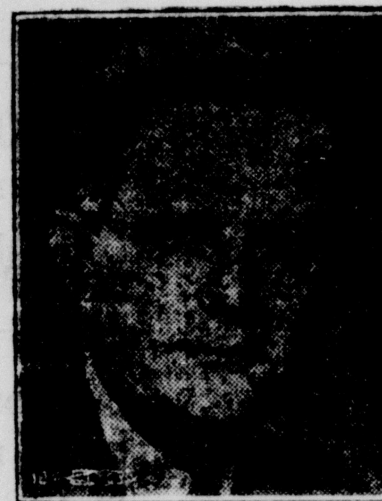

Mrs. H. H. Simpson who had visited her son Joe Simpson and family for a month, returned to her home in Hico last Friday.

All Texas Needs

Beauford Jester

of Navarro County for

RAILROAD COMMISSIONER

Now, of all times, experience and qualifications are of utmost importance in filling the vacancy on the Railroad Commission of Texas . . . The Commission which is charged with regulation of oil production and with regulation of transportation is doing Texas' biggest war job . . . Proper regulatory measures for these industries are as essential to the national effort as the production of Guns, Planes and Tanks . . . Beauford Jester is qualified by experience and education and nature to fill the requirements of this important war-time agency. . . These are the reasons.

1. Fought for you in World War I in the trenches of France.
2. Served you as a member of the Board of Regents of the University of Texas.
3. Believes we should prepare now to take care of our fighting men when the war is won.
4. Is acquainted with legal and business problems of Commission, equipped by 22 years of law practice in oil field areas.
5. Endorsed by independent oil men in Houston, Corpus Christi, Corsicana and throughout East Texas.
6. Believes the Railroad Commission should protect the consumer's interests, which he recognizes and will defend.
7. Believes in an "open door" policy for all commission hearings.

THIS WEEK

A LITTLE BIT ABOUT

This

AND A LITTLE BIT OF

THAT

THE WAR—

As We See It,

The most exciting and widely talked of thing this week was the "Sample Invasion" Our forces put on at Dieppe, France, right across the channel from England, early Wednesday morning. Now the Germans know it can be done. British Commandos, American Rangers, Canadian Scouts, Fighting Free French, pulled off a test raid to see what it will look like when ten to 100 times the number used, will be thrown against German held territory in a dozen places in the near future.

What we Americans think about the war this week would make a large book. What we know would not fill a 6x9 circular. Down here in Texas a lot of folks have been thinking more about their selfish desires than about what our men are suffering on a dozen fronts over the world.

There was one speech made this week that every Texan, and for that matter, every American should read. It was by Congressman Lyn-

don Johnson at San Marcos, Wednesday night. Probably the Herald will re-publish it next week. If you read it this week, it will not hurt to read it again next week. Only a certain kind of person will take exceptions to it. Johnson has recently been in Alaska and as usual he talks plainly.

Speaking of Alaska, that place is proving a regular graveyard for the Jap navy. It seems a good job is being done up there.

Perk your ear out and you will hear some smart strategist telling you about the Solomon Island battle. How it should be done, and what is the matter and everything. Don't worry unless a major defeat kicks our Navy out of the Pacific. Then buddy, you will know you are in war.

Note that we say "Our Forces, Our Navy, Our Army, Our Side" and so on. This seems the proper wording instead of "United Nations". It is a fact that he who is not with us is against us. There is no room for a two-faced position from here out. This goes for acts, sentiments, thoughts and everything in every individual person in America. We are on our way, and when we turn back the opposition will not amount to much. And did you know it is bad form to speak belittling of what Our Side is doing or trying to do?

It now looks as though Our Country is going to have a real army. A lot of pamby-namby stuff is being pushed aside and our man power is to be used without so many frills and excuses to do something except work at winning the war.

Hope to have something real good to tell next week.

Henry Ford—

What we like about Henry Ford is his optimism. Recently 79 years old, his outlook is bouyant, smiling kind, believing the world is bound to become a better place after the war is over. Henry is the greatest man in the greatest industrial city in the world. Detroit has 2,000,000 people — 260,000 Polish Catholics, 200,000 White Southern people with their tent shouting evangelists, 150,000 negroes plus a vast number of Canadians, Ukrainians, Germans, Yugoslavs, Italians and Syrians and "what have you?" . . . and Henry Ford still sees a bright side and keeps a young smile on an old face.

If Henry Ford can see and feel so much amid the isms, cisms, religious hatreds, racial riots and labor rackets, in such a conglomerate mass of people, then how much more should old men down here in almost "pure old Texas" have a rosy outlook on life. We enjoy talking with a man who visions better things than were enjoyed while he was a young man.

Mrs. W. F. Haiter of St. Louis, Mo., will arrive Sunday to visit Mrs. John O. Lewis and family.

I GIVE YOU TEXAS

(By BOYCE HOUSE)

Memories of a visit to St. Paul: In a sporting goods store, you can buy self-heating cans of coffee, beans and spaghetti. You just turn the can upside down, punch four holes in it, wait 10 minutes and the contents are piping hot—or so I was told. And there's a bit of the romantic connected even with the blankets the sell. Pointing to the design, a friend said, "This is a 3 1-2 point blanket," and explained that in the 1700's Indians swapped furs for blankets and a "3 1-2 point" one meant it was priced at

three large beaver skins and one small skin.

Contrary to general belief, real poets are not long-haired dreamers but are men of action. Byron swam the Hellespont—no mean achievement—and he died while aiding the Greeks in their fight for freedom. Those were not empty words he wrote:

"The icles of Greece, the iles of Greece!

Where burning Sappho loved and sung . . .

Eternal summer gilds them yet, But all except their sun is set.

The mountains look on Marathon, And Marathon looks on the sea; And musing there an hour alone, I dreamed that Greece might still be free . . .

For standing on the Persians' grave I could not deem myself a slave."

And now for something in lighter mood, written no doubt by a sour old bachelor:

"The knot was tied; the pair were wed, And then the smiling bridegroom said

Unto the preacher, 'Shall I pay To you the usual fee today,

Or would you have me wait a year And give you then a hundred clear,

If I should find the marriage state As happy as I estimate?"

The preacher lost no time in thought,

To his reply no study brought, There were no wrinkles on his brow.

Said he, 'I'll take three dollars now.' "

Really expressing the deep reverence that all men truly feel for womanhood are these lines:

"They talk about a woman's sphere As though it had a limit;

There's not a place in earth or heaven, There's not a task to mankind given,

There's not a blessing or a woe, There's not a whispered yes or no,

There's not a life, or death, or birth, That has a feather's weight or worth—

Without a woman in it."

About Soldiers--Sailors

The Herald has the privilege this week to introduce our first "Parachutist" Pvt. D. T. (Duck) Townsend, son of Mr. and Mrs. W. R. Townsend, of the Hinson community. He came up from Ft. Benning, Ga., last Friday on a ten days furlough. Now this type of war service is the one that makes most of us at home "shudder" because a "Parachutist" is the fellow who goes up in a plane and jumps out. Townsend is the best entertainer yet to talk either privately or publicly. He was a guest of the Rotary Club Wednesday and then pulled out for the Camp. Townsend volunteered, as all chutists do, and likes the game fine, especially the pay. He took a special course in Demolition, which means to blow up things in the enemy country. This "kid" has the stuff.

— S & S —

Here is another Hamlin boy making good . . . Ed Fizer, Cashier of the Wichita National Bank, formerly of Hamlin, phones the Hamlin Bank that he is called into service on August 19. He started his efforts some time ago and he goes to Tampa Florida with a 2nd Lt's. commission. Just what department Edwin will be placed in was not learned. And say, Edwin is now father of a fine little daughter, so they say.

— S & S —

Pfc. James H. Whitaker, a graduate of Hamlin High school, 1936, came over from the 345th Field Artillery, Battalion, Bty. C, Camp Berkeley, Saturday for the weekend. James was inducted in Camp Roberts, Calif. All of his relatives reside in Pasadena. This young man is a son of Rev. J. H. Whitaker, formerly pastor of the Nazarene church in Hamlin. The soldier boy says his father says he never lived in a town where the people were more friendly than Hamlin.

— S & S —

Marvin D. Carlton, son of Mr. and Mrs. Marvin Carlton is located at San Diego, Calif., as a member of the California State Guard. He is in the communications division. He tried to get into the army but a slight heart defect prevented, so he took a State Guard place to do his part.

— S & S —

August 13, 1942

Dear Sir:

I guess you will remember me. We've fought over the gravy bowl at Mrs. Morgan's lots of times.

I've changed addresses several times since you started sending me the Hamlin Herald, so I thought I had better write and let you know where I'll be the next time I move. We're leaving the Carolinas the 20th for Camp Edwards, Mass., and my address there will be as follows:

Corporal Chas. L. Mullins,
Hq. Btry. 133rd F. A. Bn.
A. P. O. No. 36
Camp Edwards, Mass.

I enjoy my Herald very much and hope to continue getting it.

I have passed the officers candidate school board and am awaiting my call to take my physical examination. If accepted I will be sent to Camp Hood, Texas, for a 3 months course and will finish as 2nd Lt.

Tell Mrs. Morgan I am doing o. k. I certainly miss her good meals at the Hotel. This army chow can't compare with it.

I expect a furlough within the next 3 months and if so I will see you then.

— S & S —

Another "Pearl Harbor Boy" Olen Young, son of Mr. and Mrs. Charlie Young of the Boyd Chapel community, arrived Wednesday direct from Hawaii. Olen is at home from the Navy after nearly three years. He has been stationed at Pearl Harbor for two and half years. This young man is going to stay close home while here and would be pleased to see all who can visit him.

— S & S —

Sgt. T. B. Christopher, son of Mr. and Mrs. W. J. Christopher left Thursday for Camp Grant, Ill., after being at home for ten days to be with his mother who had a major operation in Abilene about two weeks ago. Sgt. Christopher is in the Medical Corps.

— S & S —

Howard Nall's draft number was 13. Monday he and Weldon Hudson both volunteered for the Army at Abilene, and believe it or not, they were placed in the Maintenance Battalion, 13th Air Division at Camp Perry, Ohio. It is no secret that these two Hamlin Volunteer Firemen are in the bachelor class and now they are going places, and it is not near home, either. Good luck, "fellows".

OUR FIRST WAAC LETTER

Mr. Bowen Pope:

I am enclosing one dollar for a year's subscription to the Hamlin Herald.

All indications are that the officers candidate school is going to be plenty tough, but we are a very enthusiastic group. We have nice living quarters, neat uniforms, and good food so we should all survive.

Sincerely,

Carolyn F. Greenway

OC — WAAC 7th Co. 1st Regt.
Ft. Des Moines, Iowa

Miss Greenway is a daughter of Mr. and Mrs. Roscoe Greenway, a Hamlin girl of the finest type. Congratulations, Miss Carolyn.

— S & S —

James Haight, a Hinson boy writes from the Navy Training Station at San Diego that he has been there three weeks and has worn out one pair of shoes. He seems to like the Navy fine . . . maybe except the food . . . and till this we thought the boys in the Navy had the best of food. James must be home sick already.

— S & S —

Engineer Property Office
Camp Hood, Temple, Texas
August 13, 1942

Mr. Bowen Pope,
Hamlin, Texas.

Dear Friend:

Would like very much to have some news from Hamlin to follow me, so I am trusting you to see that my wish comes true.

As I am signed up for the duration I seldom ever get to see my family but when I do we talk of the day when the war clouds roll by and we go back home. Suppose you will think I am enlisted in the army. Am sorry to inform you that I am not. Am also certain you could guess the reason I am not enlisted.

Even though I am classed physically unfit, I am very thankful that I now have health and strength enough to do a small bit. As I served over seas before with the Engineers, I feel quite at home here as a Civil Service worker with the Army Engineers. Have been working in an office here in Temple quite a while but we are moving to the camp, near Killeen next week.

Want to be sure and let you and all my friends out there know I am signing all my Government papers and giving Hamlin as my home or permanent address. And when we win this war I expect to come home. Think we all know what it would mean just in case we don't win. Do not suppose the Japs or Germans would grant a request but in that case I would request to be taken back to Hamlin and face the firing squad with friends there. As I am certain in my mind that is what would happen to the most of us.

Regards to all.

Your friend,

C. D. Yarborough

O. K.—C. D., anybody who had read the Herald the past ten years ought to know you are the chap who was gassed over in France, and about a dozen times you have been in some Veterans Hospital near death.

ROUND TOP NEWS

By Raye Shelley

Round Top had a big rain during the week end. In some parts there was not so much rain as in others.

Jackie, Jo, and Faye Brown have returned home after a visit with relatives in Comanche.

Billy Smith of McCaulley is visiting relatives here.

Frank Allen has been ill the past few days, but is improving.

Roy Cooper took a physical examination at the local draft board Monday.

Mrs. Ollie Mae Worlick of Monroe, La., is visiting relatives here.

Erlene Gobel spent Sunday with Jo Brown.

Mr. and Mrs. John Shelley and family visited relatives in McCaulley Sunday. Their nephew, Tech. Sg. Willie D. Berry of Fort Bliss, was at home on a furlough with his parents.

Mrs. Johnnie Carlton has been visiting her sister at Stamford, who is seriously ill.

Little Terry Ronald Scott is visiting his grandparents, Mr. and Mrs. Terry Cooper.

The WPB steel conservation order reached into the world of sport to save about 12,500 tons of steel which had been going every year into ice skates and roller skates.

TEXAS

WAR BOND QUOTAS FOR JUNE

WASHINGTON, D. C. June 1.—Henry Morgenthau, Jr., Secretary of the Treasury, today made known June War Bond quotas for the 3,070 counties in the nation to all State and County War Savings Staffs.

The June quota for the State of Texas is \$26,000,200. The county quotas, based upon a substantial increase over May quotas, are expected to reach ten per cent of income when the nation goes on a billion-dollar-a-month War Bond basis in July to help meet the war cost. "Everybody, every pay day, ten per cent," is the battle cry throughout the country. You can buy War Bonds at your Bank, Building & Loan Association, Post Office and at many department stores.

Quotas by counties are:

Anderson, \$95,600; Andrews, \$1,400; Angelina, \$38,600; Aransas, \$11,400; Archer, \$19,300; Armstrong, \$13,000; Atascosa, \$30,400; Austin, \$100,900; Bailey, \$7,700; Bandera, \$11,600; Bastrop, \$44,700; Baylor, \$35,000; Bee, \$33,400; Bell, \$131,700; Bexar, \$1,498,000; Blanco, \$12,000; Borden, \$1,300; Bosque, \$24,900; Bowie, \$115,600; Brazoria, \$100,700; Brazos, \$71,000; Brewster, \$8,900; Briscoe, \$12,200; Brooks, \$13,700; Brown, \$130,000; Burleson, \$28,800; Burnet, \$21,400; Caldwell, \$124,300; Calhoun, \$16,600; Callahan, \$29,600; Cameron, \$159,400; Camp, \$25,600; Carson, \$35,800; Cass, \$33,100; Castro, \$3,000; Chambers, \$27,500; Cherokee, \$68,700; Childress, \$33,600; Clay, \$27,400; Cochran, \$4,900; Coke, \$8,600; Coleman, \$59,000; Collin, \$99,200; Collingsworth, \$20,500; Colorado, \$59,700; Comal, \$60,400; Comanche, \$45,000; Concho, \$14,600; Cooke, \$59,600; Coryell, \$42,500; Cottle, \$22,400; Crane, \$5,600; Crockett, \$12,700; Crosby, \$29,200; Culberson, \$5,700; Dallam, \$47,300; Dallas, \$3,533,900; Dawson, \$47,400; Deaf Smith, \$17,100; Delta, \$12,700; Denton, \$118,000; De Witt, \$54,000; Dickens, \$33,800; Dimmit, \$9,000; Donley, \$24,000; Duval, \$21,800; Eastland, \$61,900; Ector, \$47,800; Edwards, \$7,000; Ellis, \$111,300; El Paso, \$611,400; Erath, \$59,400; Falls, \$66,000; Fannin, \$54,700; Fayette, \$37,500; Fisher, \$11,400; Floyd, \$25,800; Foard, \$10,800; Fort Bend, \$73,700; Franklin, \$12,300; Freestone, \$29,400; Frio, \$15,000; Gaines, \$11,800; Galveston, \$700,000; Garza, \$16,100; Gillespie, \$17,300; Glasscock, \$2,700; Goliad, \$22,500; Gonzalez, \$105,500; Gray, \$90,500; Grayson, \$261,100; Gregg, \$262,500; Grimes, \$64,700; Guadalupe, \$52,400; Hale, \$60,300; Hall, \$35,300; Hamilton, \$55,200; Hansford, \$12,500; Hardeman, \$41,800; Hardin, \$39,500; Harris, \$3,731,800; Harrison, \$110,200; Hartley, \$1,600; Haskell, \$58,600; Hays, \$56,600; Hemphill, \$17,700; Henderson, \$36,800; Hidalgo, \$241,400; Hill, \$61,300; Hockley, \$40,600; Hood, \$12,100; Hopkins, \$36,700; Houston, \$29,300; Howard, \$91,300; Hudspeth, \$3,700; Hunt, \$132,700; Hutchinson, \$72,300; Irion, \$23,900; Jack, \$17,700; Jackson, \$55,800; Jasper, \$28,300; Jeff Davis, \$3,500; Jefferson, \$831,000; Jim Hogg, \$13,600; Jim Wells, \$42,600; Johnson, \$94,800; Jones, \$95,800; Karnes, \$55,100; Kaufman, \$52,200;	Kendall, \$13,000; Kenedy, \$1,900; Kent, \$4,500; Kerr, \$75,000; Kimble, \$10,000; King, \$500; Kinney, \$4,400; Kleberg, \$41,600; Knox, \$57,200; Lamar, \$64,900; Lamb, \$47,700; Lampasas, \$33,400; La Salle, \$15,600; Lavaca, \$59,400; Lee, \$21,000; Leon, \$29,000; Liberty, \$97,700; Limestone, \$45,700; Lipscomb, \$19,200; Live Oak, \$26,800; Llano, \$17,000; Loving, \$3,400; Lubbock, \$347,800; Lynn, \$35,000; McCulloch, \$34,500; McLennan, \$460,000; McMullen, \$4,500; Madison, \$10,500; Marion, \$17,700; Martin, \$40,000; Mason, \$17,600; Matagorda, \$72,700; Maverick, \$36,800; Medina, \$23,500; Menard, \$17,000; Midland, \$81,400; Milam, \$60,700; Mills, \$15,600; Mitchell, \$27,200; Montague, \$51,000; Montgomery, \$80,000; Moore, \$10,000; Morris, \$28,200; Motley, \$19,400; Nacogdoches, \$80,000; Navarro, \$121,700; Newton, \$18,800; Nolan, \$71,300; Nueces, \$550,000; Ochiltree, \$21,500; Oldham, \$4,300; Orange, \$65,000; Palo Pinto, \$80,000; Panola, \$30,700; Parker, \$56,000; Parmer, \$7,300; Pecos, \$19,300; Polk, \$19,400; Potter, \$65,100; Presidio, \$26,700; Rains, \$7,200; Randall, \$19,800; Reagan, \$5,900; Real, \$3,000; Red River, \$38,500; Reeves, \$44,600; Refugio, \$51,700; Roberts, \$7,000; Robertson, \$60,000; Rockwall, \$17,000; Runnels, \$62,600; Rusk, \$181,600; Sabine, \$3,300; San Augustine, \$19,000; San Jacinto, \$3,000; San Patricio, \$71,900; San Saba, \$19,500; Schleicher, \$25,000; Scurry, \$26,100; Shackelford, \$24,200; Shelby, \$46,700; Sherman, \$12,000; Smith, \$215,200; Somervell, \$6,100; Starr, \$9,300; Stephens, \$49,200; Sterling, \$6,400; Stonewall, \$1,100; Sutton, \$25,000; Swisher, \$16,000; Tarrant, \$1,373,100; Taylor, \$225,000; Terrell, \$5,600; Terry, \$42,100; Throckmorton, \$14,000; Titus, \$33,800; Tom Green, \$224,700; Travis, \$616,600; Trinity, \$11,800; Tyler, \$25,000; Upshur, \$65,000; Upton, \$14,900; Uvalde, \$46,800; Val Verde, \$51,500; Van Zandt, \$45,700; Victoria, \$100,400; Walker, \$100,000; Waller, \$22,000; Ward, \$29,500; Washington, \$39,000; Webb, \$103,800; Wharton, \$109,900; Wheeler, \$28,000; Wichita, \$427,400; Wilbarger, \$10,900; Willacy, \$17,400; Williamson, \$98,700; Wilson, \$11,900; Winkler, \$51,500; Wise, \$30,700; Wood, \$41,200; Yoakum, \$6,900; Young, \$73,000; Zapata, \$1,000; Zavala, \$6,300.
--	--

Mr. and Mrs. Lot Shell Sr. of Georgetown, and their son Thomas and wife of Bryan, are visiting Mr. and Mrs. Lot Shell Jr. and their daughter, Mrs. Joe Simpson last week.

Mr. and Mrs. James R. Bledsoe and children of Hobart, Okla., came Tuesday to visit Mr. and Mrs. Ted Bledsoe and family.

Workers have been advised by OPA to watch for specials in fresh fruits and vegetables, and thus avoid using any supply of canned goods they may have on hand. The supply of tinned products will steadily decrease, due to the need for tin in war industries.

According to the best records, the first farm terrace in Texas was constructed by a Newton County farmer, Duke Howell, in 1882.

A BABY BOY

Mr. and Mrs. O. C. Sanders are parents of a boy, Glenn Roger, weight 8 1-2 pounds, born Sunday morning, August 16 at 7:15 o'clock at Dr. W. C. Weir's office.

Mrs. Paul Goodgame is sending the Hamlin Herald for six months as a gift to her sister, Miss Irene Harris in Stinnett, Texas.

Misses Bunny and Billy, daughters of Mr. and Mrs. D. W. Carlton have returned from an extended visit with their sisters, Mrs. Dewey Baggett in Slaton and Mrs. Forest Reynolds in Fort Worth.

A bathing cap or shower cap uses as much rubber as ten panoramic telescopes.

KEEP IT LOOKING NEW

One of the obvious ways of getting the most out of your car is to keep its finish from disintegrating. Here are some house-keeping hints:

Park in the shade as much as possible. Don't let your car stand in the dew at night.

A clean, dry cloth is all you need if the finish is just dusty. Grit or sand or mud should be flushed off.

Cold water, cool car, cool location out of the sun are three things to remember when washing. Dry with a chamois or soft cloth.

If you use polish to renew luster, don't use too much; rub lightly and rub until dry. If the color seems to rub off, don't worry; it's just dead pigment. Polish helps protect finish at the seashore.

Chrome-plated parts should be protected by furniture wax or even motor oil. Remove rust with porcelain-type scouring powder. Wash frequently when salt is in the air or on streets.

Oil or grease on tires should be removed immediately with soap and water. Take dust out of car upholstery once a month with whisk broom and vacuum cleaner. Remove spots before they soak in and dry.

Note: This is the last of a series of articles on how to get the most out of your car based on the 64-page booklet, Automobile User's Guide, published by the Customer Research staff of General Motors. If you would like to have this booklet, send your name and address to Department of Public Relations, General Motors Corporation, Detroit, Mich. A copy will be sent you without charge.

Bomb 'em with JUNK

JUNK NEEDED FOR WAR

Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—When you get a pound or more, strain into a large tin can and sell to your meat dealer. **NEEDED ONLY IN CERTAIN LOCALITIES**—Waste paper and tin cans—wanted only in certain areas, as announced locally. **NOT NEEDED** (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee. . . If you live on a farm, and have found no means of disposing of your junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

Success Factors For Livestock

Practices Now Have Proven Their Value

By P. E. JOHNSTON

(Department of Agriculture Economics, University of Illinois College of Agriculture.)

Here are some 36 "success" factors by means of which farmers can gear up their livestock production for wartime needs.

All the practices have proved their worth in farm account records kept by farmers in co-operation with this college.

BREEDING: (1) Flush at breeding time, (2) reduce feed of sows at weaning time and (3) use proper type breeding stock and select individuals (mark litters and select from best and sort gilts from feeding herd before they get too fat for proper use).

FEEDING: (1) Feed proper rations to sows during gestation period, (2) provide plenty of pasture, (3) put sows and pigs on self-feeder, (4) feed balanced rations to pigs and (5) provide plenty of fresh water.

Most Important.

SANITATION: (Eighteen of 24 farmers interviewed stated that sanitation was most important factor of all.) (1) Clean houses, (2) clean sows and (3) clean pastures.

MARKETING: (1) Sell spring and fall pigs when prices are normally highest (August-September and March-April) and (2) deviate from normal if the outlook shows clearly that an abnormal situation prevails at the time.

TIMELINESS: To conserve labor and to increase the production of pork, (1) breed sows to farrow at desired time, (2) have equipment ready and guard against rapid changes in temperature, (3) castrate before pigs are four weeks of age, (4) vaccinate at five to six weeks, (5) wean at eight weeks and (6) finish at six months of age, the usual time period.

Farm Hazards

Strangely, agriculture is the most hazardous American industry, with the farm home contributing largely to this amazing total of accidents. Here are some safety suggestions:

Sharp-edged tools be kept away from play places.

Stairways with more than three steps be equipped with hand-rails.

Free use of both hands not to be sacrificed because of heavy load to carry.

And stairways be kept clear of toys, tools, and boxes. The annual cost of farm and rural fires is \$200,000,000. Then, too, besides this property damage, 3,500 lives are lost in these fires.

To combat this menace: Every open fireplace be equipped with a screen.

Kettles, pails, and tubs of hot liquids be kept off the floor.

House dry cleaning be done out-of-doors.

Matches be kept away from children.

And saucepan handles be kept away from the edges of stoves and tables.

Cuts, bruises, and infections should never be regarded as minor, as people have died as a result of a scratch becoming infected.

Lamb Fattening Tests

In an effort to help sheepmen find ways to fatten lambs by adding protein to rations, the Cornell university agricultural experiment station tested seven "protein supplements" on lambs. Each lamb received, in addition to the particular protein-rich feed tested, a standard ration of shelled corn, corn silage, ground limestone and salt.

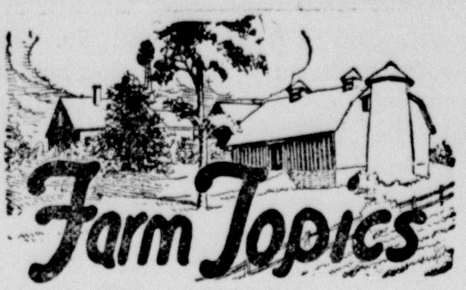

The lambs fed linseed meal in the ration had better appetites than did those fed the other supplements, which included soybean oil meal, whole soybeans, corn gluten meal, distillers' corn dried grain, brewers' dried grains, and urea.

Averaging the two experiments, the feeding value was slightly the highest for whole soybeans, followed by soybean oil meal, corn gluten meal, and linseed meal.

Wheat Poultry Ration

Bushel for bushel, wheat is the cheapest ingredient in the poultry ration today and more and more poultrymen are feeding wheat.

The reason wheat is so cheap at the present time is that the U. S. department of agriculture is putting about 100 million bushels of wheat on the market. This was done to help livestock, dairy, and poultry producers use this wheat for feed and attain Food for Freedom production goals.

Milk Distribution Changes Pending

Labor, Transportation, Material Shortages Reason

By T. G. STITTS

(Chief of Co-Op Research and Service, Farm Credit Administration, Washington, D. C.)

Shortages of critical materials and resources threaten to bring about more dramatic changes in milk distribution methods within the short space of a few weeks than the combined forces of competition and industrial ingenuity have brought about in the past few years.

Shortages of rubber, labor, trucks, machinery, paper and possibly other materials may accentuate the trend away from home delivery, speed up every-other-day delivery, cause zoning of sales areas and may spell the end of special deliveries and particular special services.

These war-time factors overshadow temporarily the longer-run trend toward new methods of distribution which have been going on for several years in the fluid milk industry.

Courtesy U. S. Department of Agriculture

This little miss from Washington, D. C., knows what is good for her. The millions of gallons of milk consumed each week, both here and abroad in those nations to which Uncle Sam has sent it, is preventing malnutrition which so sorely afflicted war time nations during the last war.

try. These longer-run developments, however, retain a basic importance not only during the war but in the post-war period.

Paper Instead of Metal

The introduction of paper containers, growth of gallon and half-gallon containers, increase in store sales, increased sale of special milks, growth of peddlers, use of retail price-quantity discount schemes and development of all wholesale dealers are among the more important recent changes that were well under way in several larger cities before the defense and the war emergency developed.

From experiences so far, it is difficult to conclude how many of these changes will be permanent. Many of them will be, but others may prove to be unsatisfactory for one reason or another.

AGRICULTURE INDUSTRY Cotton

By FLORENCE WEED

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Cotton seed will soon be more important than cotton lint, according to a cotton economist. This change has come about since science has discovered new uses for linters, hulls, oil and meal.

Linters are the short fuzzy fibers left by the gin. They are used for gun cotton, varnishes, mattresses, fine writing paper, kodak films, smokeless powder and shatter-proof glass. Mixed with chemicals, the linters form plastics that can be molded into thousands of useful articles from radio cases to knife handles. Linters, spun into yarn, make the new rayon fabrics.

Cotton hulls go into bran for cattle, blotting paper, packing materials, baseballs and horse collars. Oil pressed from the seed is sold for food uses and goes into auto cup grease, roofing tar, cosmetics and in emulsifying medicine. Cotton cake and meal, left after the oil is extracted, is used for stock feed and fertilizer.

Cotton cloth has been used experimentally in making hard surfaced highways in 25 states.

Research has produced a cotton cloth that looks like wool and is being used for blankets. A new cording, strong enough for parachute harness and bomb slings, is taking the place of linen, once imported before the war.

Rural Briefs

For best production milking should be done at regular hours. After milking is started, it should be completed without interruption and as rapidly as possible.

A new method of cheese-making developed at the Virginia Polytechnic institute cuts the customary time in half and has been selling at a premium on the market.

CARBOLATED CREOSOTE kills and repels mites and blue bugs. Also repels termites. For sale at PAUL BRYAN LUMBER CO.

Mrs. O. D. Brooks and children returned to their home in Stephenville Thursday after a visit here with her parents, Mr. and Mrs. R. O. Proctor.

Cliff Reynolds returned Tuesday from San Diego, California, where he visited his son, Clifford Jr., who is employed in Consolidated Aircraft.

Little Patricia Bennett had a tonsil operation at the Stamford hospital Tuesday. She is doing fine.

CARBOLATED CREOSOTE kills and repels mites and blue bugs. Also repels termites. For sale at PAUL BRYAN LUMBER CO.

What You Buy With WAR BONDS

Tractors and motors will never wholly replace the Army Mule as a factor in the mobile units of our army. The Army Mule is a tradition and the "mule skinner" is a breed unto himself. Army Mules are used by the Field Artillery and the Cavalry in areas where the terrain is rough and tractors cannot operate.

Pack trains in mountainous sectors are often necessary and here the mule, slow but sure-footed, plays an important role. Our Army buys thousands of mules paying from \$175 to \$190 for each. The mule eats less, carries more, and some declare is smarter than the horse. Your purchase of War Bonds and Stamps helps pay for these Army Mules. Invest at least ten percent of your income in War Bonds every pay day.

U. S. Treasury Department

Notice the date after your name.

How big do egg plants grow? Well guess again. Wednesday A. A. Bowman brought a sample of what he grew in Hamlin. It weighed three and a quarter pounds. Pretty good size.

Rev. and Mrs. Gilmore and daughter, Miss Bernice of Sherman, were guests this week in the home of Mr. and Mrs. John Turner. They were enroute to Hagerman, New Mexico, where Miss Bernice will again have charge of the music department in the public schools.

CARBOLATED CREOSOTE kills and repels mites and blue bugs. Also repels termites. For sale at PAUL BRYAN LUMBER CO.

Mr. and Mrs. J. W. Bevels have recently been visiting in Waxahachie and Marlin. They were accompanied by their daughter, Mrs. Willie Maberry and family. These good folks have a son, Robert, serving somewhere in the Navy, reporting "well and hearty".

Mrs. Carl Stotler returned last Thursday from a week's visit in Stephenville in the home of her sister, Mrs. O. D. Brooks. Her nephew Donald Gene and niece Sandra came with her.

Mrs. Holly Toler returned this week from the Sweetwater Hospital where she had been taking medical treatment.

S. J. R. No. 20

A Joint Resolution

Proposing an amendment to the Constitution of the State of Texas by amending Section 33 of Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as read as follows:

"Section 33. The accounting officers of this State shall neither draw

nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, nor to retired officers of the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy, and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

"Against the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Each voter shall scratch out one of said clauses on the ballots, leaving the one expressing his vote on the proposed amendment.

Section 3. The Governor shall issue the necessary proclamation for said election, and have the same published as required by the Constitution and laws of this State, and the sum of Five Thousand (\$5,000) Dollars, or so much thereof as may be necessary, is hereby appropriated from any funds in the State Treasury, not otherwise appropriated to defray the expenses of printing said proclamation and of holding said election. (40-4t)

BOYD CHAPEL CHIRPS

By Mrs. James Ferguson

The Baptist revival closed Sunday night with twenty-five additions to the church, fourteen by baptism and several recommitments.

The Methodist revival begins Friday night of this week. We are trusting for as great success as the Baptists during their revival. We extend an invitation to all joining communities to come and join us in these services and to help us in our song services.

Rev. John Cory and his mother, Mrs. J. C. Cory returned Monday to their home in Kennedale.

Wanda Faye Carter who has had an operation on both feet in the Hendrick Memorial Hospital, Abilene, is doing nicely and is expected to return to her home in a few days.

Rev. and Mrs. Eugene Dowdle and children of Chandler, Arizona, spent last week end in the home of Mr. and Mrs. D. L. Estes. Mrs. Dowdle is a sister of Mrs. Estes.

Mr. and Mrs. Bryon Maberry and children and Mrs. Maggie Dunn attended church services here Sunday.

Mrs. Josephine Foote of Abilene attended the Baptist revival last week and visited among friends while here and also her daughter, proved but still not able to be up. Mrs. J. D. Bingham of Hamlin.

Mrs. Ada McClure is some improvement. Mrs. Leon Rogers and children of Dallas are visiting Mrs. Rogers' parents, Mr. and Mrs. J. P. Bingham.

Mrs. Linnie Sparks and children of Quanah are visiting Mrs. Sparks' mother, Mrs. Ada McClure and family.

Mr. and Mrs. Carl Holden and children visited Mr. and Mrs. Carl Holden Sunday. Also Jack Holden spent Friday night in the Holden home.

Guy L. Elkins, age 18, son of Mr. and Mrs. W. C. Elkins of Hamlin, volunteered for the Navy at Abilene August 15th. This makes the third son to do army service.

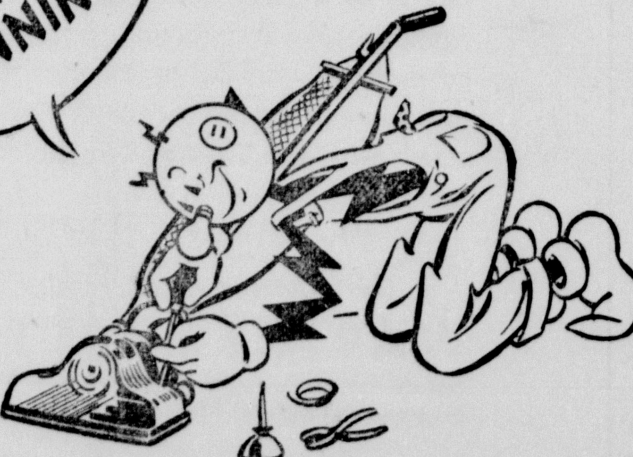

The 10,000 tons of steel which yearly went into the furniture of barber shops and beauty shops is enough to build more than 600 light tanks.

Would You Do this Job for A DIME A DAY?

KEEP 'EM RUNNING!

Our Servicemen Will Help You!

... and when you and the carpet are both worn to a frazzle, would you clean the oil lamps ... and do a week's wash on a knuckle-bruising board ... and run out to the springhouse after milk and butter ... all for the same 10 cents?

"No bargain!" you say. But Reddy Kilowatt, your electric servant, does all these jobs and more—for a dime a day or less in the average West Texas home. What's more, that dime's value has grown so steadily that nowadays it buys about twice as much service as it did ten or fifteen years ago.

It's about the biggest bargain in the world ... and probably the only household item that hasn't gone up as a result of the war!

Today, under experienced and practical business management, West Texas enjoys an abundant supply of electric power ... power to perform household drudgery ... power for wartime schools, training camps and industries ... and power that will enrich the life of everyone in peaceful years to come.

Miss Dorothy J. Bailey Honored With Party

Mrs. M. O. Kimmey honored Dorothy Jane Bailey with games of bridge Wednesday afternoon. Miss Bailey is leaving Friday for California. She was presented with gifts. Refreshments of ice cream and cake were served to:

Misses Billy Faye Rountree, Marguerite Nobles, Nada Rue Bristow, Bettye Abbott, Mildred Heinke, Mrs. France Burton, Mrs. L. C. Bond and Mrs. Kimmey and the honoree.

Student Is President Of Religious Council

Solving the problems of new students at Texas State College for Women is the job of Seniors Evan Adams (top) of Dallas and Abbie Rutledge of Alice. Miss Adams is president and Miss Rutledge is vice-president of the Student Advisory Council, composed of representative students from each college department.

New Students' Friend

With Miss Ruby Guthrie, Kaufman senior, as president, the student council of religious activities at Texas State College for Women sponsors early morning meditation services each Sunday in the Little Chapel-in-the-Woods. The council, inter-denominational and campus-wide, also has charge of vesper services each Friday night in the 24 residential halls and promotes activities of the Denton churches.

CARLTON CARRIES ON

Carlton Defense Club met last Tuesday, August 11th and arranged to meet at 8:00 in order to have time to enjoy a picnic supper, which was spread on trailers.

We had as our guests Judge and Mrs. Otis Miller of Anson. After supper Judge Miller made a patriotic speech which everyone enjoyed very much.

Reports were made by various committees, Red Cross, etc.

—Reporter

It is estimated that approximately 90,000 Texas farms have turned primarily from horse and mule power to the tractor during the last ten years.

Hamlin Girl Gets Degree At Baylor

Waco, Aug. 20—Mary Boyd, daughter of Mr. and Mrs. W. L. Boyd of Hamlin, received her M. A. degree with a major in Accounting in the fifty-third annual summer commencement exercises at Baylor University.

Miss Boyd received her A. B. degree from Baylor on August 17th, 1938, with a major in business and a minor in education. She attended Simmons University in 1927-1929, Texas Tech in 1931-1932, and Baylor University in the summers of 1934, 1935, 1936 and 1938.

Miss Boyd taught commercial subjects at Ft. Stockton for several years. She is at present employed with Cross, Bates and Co., San Diego, California.

Carlton Community Women Talk Food

The greater number of methods used to preserve food, the more interesting our daily meals can be made, stated Clara Brown Long to a group of ladies of Carlton community, Tuesday afternoon at the school house. Mrs. Long gave a demonstration on drying of fruits and vegetables, showing that drying is economical, takes less equipment and materials may be stored in fewer containers and can be transported easily. A sun drier was on exhibit of foods that can be dried, corn, okra, shell peas and beans, sweet potatoes, carrots and peaches and apples.

Storage was discussed and stress was placed on proper ventilation to prevent cans and rings from rusting and to have a cooler place to store foods.

Mrs. W. F. Poe reported a tub garden with peppers around it was furnishing her table with peppers.

Mrs. Fielder and Mrs. Johnson reported since the last meeting a feather comforter had been made and plans to make several more were being made.

Several reported plans for fall gardens were under way.

All reported heavy canning all summer in the Food for Victory program.

A meeting of the Defense Club was announced for August 11, at 8 P. M. by Mrs. Brooks, secretary. Supper is to be brought and served in picnic fashion.

Food choppers and sifters were purchased.

Those present were: Mmes. Bill Kelley, S. E. Brooks, A. A. Hackley, D. Y. Norman, J. H. Morton, M. L. Emerson, H. A. Jenkins, L. E. Fielder, Bobbie Lou Kelley, F. W. Poe and Clara B. Long.

Can Women Do

More War Work In Jones County?

A series of orientation talks over the county to explain how women may assist in national war effort will be scheduled by Jones County Red Cross Chapter within the next few weeks.

Phases of activities will be explained by Mrs. L. M. York, production and volunteer service chairman, in order to enable all women to find some duty they may perform. Present program of county chapter of American Red Cross embraces production, with sewing, knitting, and surgical dressings, canteen corps being organized from those who have completed Red Cross nutrition classes, and motor corps, which will offer first aid and motor mechanics to stand ready in event of need.

Mrs. Dwight Davis, national chairman of volunteer service, writes the Jones County Chapter, that the woman's moral duty to serve her country is the same as the legal duty of men of military age, and she urges that all find the way in which they can most usefully serve. "No one is free to choose NOT to serve his country", she says, in asking for more helpers in the nationally approved tasks of American Red Cross.

NOTE: During the hot summer days it is natural for all of us to let down on many duties, and perhaps the Red Cross Work gets hit hardest. Let all of us bear in mind and feel that we are facing something terrible and that no one should escape doing a little for the sake of Freedom. Is it possible there are yet some people who are so dumb that they feel no alarm, no need to turn a hand to produce something some wounded soldier or sick and helpless woman or child may need in the conquered lands?

HAMLIN 1884—58 Years In Jones County—1942 TEXAS

POT SHOTS FROM McCAULLEY

—BY GEO. DARDEN—

The Baptist revival closed Sunday night and a number of folks united with the church. Good crowds attended every service. Rev. Ashford who preached for the meeting left for Abilene Sunday night and will begin a two weeks meeting at the South Side church in Abilene.

Mr. and Mrs. Sim A. Reeves and children of Ft. Stockton visited last week with Mrs. Reeves' parents, Mr. and Mrs. S. E. Miers and other relatives. Mrs. Ellis Eivens and children Margaret Darden accompanied the Reeves family on their return trip to Ft. Stockton where they will visit for a week.

Mrs. L. E. Rector and daughter Pat have returned to their home in McCaulley after a week's visit in the home of Mr. and Mrs. Turner Beard in Itasca, Texas.

Mr. and Mrs. Willard Maberry attended church at the tabernacle last Sunday night. Other out of town folks attending church were Mr. and Mrs. W. T. Farrow of Swedonia, and Mrs. Louis Bailey and Mr. and Mrs. Smith of Plastero, and also a party of six from Abilene, but we failed to get their names.

Mr. and Mrs. Early Rector of Dallas are visiting for a few days with Mr. and Mrs. F. L. Rector and other relatives.

Eugene McKinney of O'Donnel, Texas, was a week end visitor in the home of a sister, Mr. and Mrs. Hiram Prather.

McCaulley had a nice rain Saturday and crops in this vicinity will be greatly helped by the moisture. According to reports, and we have seen with our own eyes, cotton near McCaulley that will make a half of bale per acre providing the insects or some other catastrophe doesn't hit it.

Doc, Perryman who is in the Navy and stationed at Pearl Harbor writes friends that he is doing fine and weighs 185 pounds.

Word comes to us that Leo Parker has arrived safely somewhere. These McCaulley boys are really going places in the Army and Navy, and we are happy to hear from the boys wherever they may be.

Misses Frances and June Davison daughters of Mr. and Mrs. W. F. Davison, have returned to their home in McCaulley after a 2 weeks visit in Chicago with their brother and wife, Mr. and Mrs. Marvin Davison. Marvin is in the navy and stationed at the Great Lakes Naval Training Base.

Ed Mason has returned to McCaulley after serving twenty-five years with the Panama railroad in the Panama Canal zone. Mr. Mason has retired from service and we are happy to again have him in our community. His mother and sister, Mrs. Flora Mason and Miss Gertie Mason, are long time residents of McCaulley and are what we call fine folks.

The patriotic rally at the McCaulley tabernacle last Tuesday night was a success. The guest speaker was Judge Dallas Scarborough of Abilene and we have never heard a more patriotic address by any statesman. Others on the program were Mrs. Willard Maberry who sang our National Anthem and America the Beautiful. Mrs. L. H. Boyd gave a talk on USO work. Howard C. Dav-

ison of Rotan, a talk on scrap iron for the war effort, Miss Ozzie Folkes, home demonstration agent, spoke on Red Cross and First Aid; H. P. Powers spoke on Red Cross work that is being done in the McCaulley community; Bess Darden sang God Bless America and Mary Ann McCollum and Patricia Louise Rector gave readings. And we say that our community should have more such rallies.

Howard Davison and Guy Patterson of Rotan were McCaulley visitors Tuesday afternoon and attended the patriotic rally. Other out of town folks at the rally were Mr. and Mrs. Nail of Roby, Sheriff R. L. Wilkins, Miss Ozzie Folkes and Miss Faye Lee, all of Roby, and Mr. and Mrs. Charlie A. Jones of Rotan.

O-O-O

This may be our last comment on the Texas Senator's race in this column. It will be at least for six years and if the war continues over a period of years, then we are sure it will be our last comment. Though our opinions do not amount to a great deal in Texas politics, we are proud of the fact, that even a plain citizen may exercise the right of free press and one of the things that we are fighting for is "Freedom of the Press".

Our Junior Senator has attacked the Texas press from every angle. He calls Texas newspapers liars, yellow, etc., and we wonder if he wishes he could recall some of those statements since we see in the Sar-Telegram letters from the people who write in his behalf, and we wonder if he believes that those Texans who write in his behalf are misrepresenting the truth.

Yes, we will cast our vote for the yes man. Jimmie Allred was a yes man in the last war when Woodrow Wilson was calling for volunteers and at the age of nineteen he volunteered for the U. S. Navy. He didn't say no. Two of Jimmie's brothers were also in the armed forces of their country. Where, O where was Mr. O'Daniel during the last war when he was only twenty-seven years of age and single. He must have been a "No" man then as he is now.

Senator O'Daniel does not deny that he voted with Wheeler and Nye against the draft law and in fact he says he has no apologies to make concerning that vote, but now since his son was inducted into the army the Senator has become very patriotic and he never makes a speech without mentioning the fact over and over that his son is in the army. Now we admire his son as we do all boys in the armed forces, but that's no reason that we should vote for a man on his son's record. And please remember folks when we go to vote, that Jimmie Allred is asking for your vote on his own record and not on the record of his kinfolks.

Some of O'Daniel's supporters have gone so far as to say that Jimmie Allred should withdraw from the race and that he was whipped to start with. Well, folks, Jimmie is not the quitting kind. He didn't quit in the last war and he won't quit now.

AGRICULTURE INDUSTRY Sugar Cane

By FLORENCE WEED

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Some of the attractive colorful rooms in modern homes are made with wall board of pressed sugar cane. Time was when no one knew what to do with sugar cane bagasse after the sugar was extracted. Tons were either destroyed or burned as fuel in the sugar mills. Then industrial chemists found a way to press the cane refuse into long fibers, to felt and weave it into long board sheets.

Chemists have also found that a cheap molding compound can be made from bagasse. By grinding the cane to a powder, combining it with chemicals, the substance can be molded into flat panels or floor tiles.

Backers believe that this low cost molding compound will enable the plastics industry to branch out into broader fields such as the manufacture of furniture, building materials and parts for automobiles since it can be made for less than half the cost of the cheapest synthetic compound known.

Nightmare Job in Puerto Rico Completed by Navy

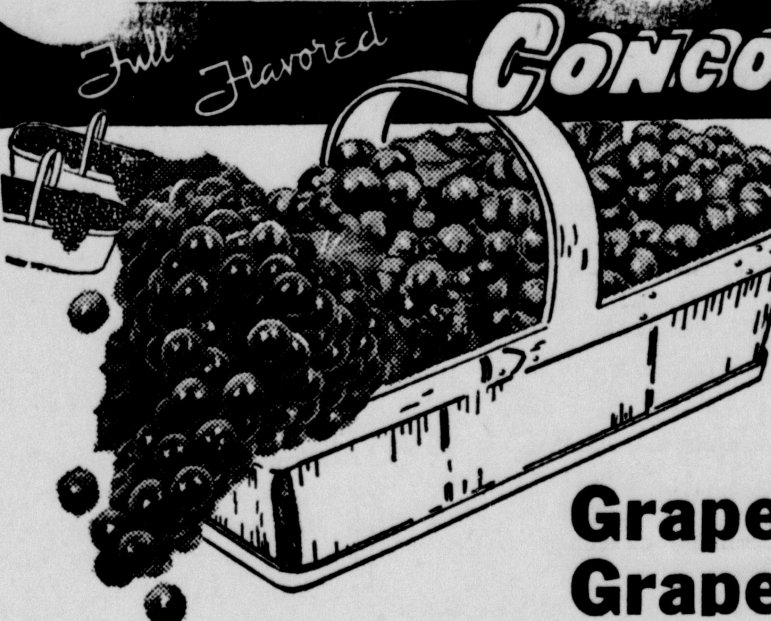

SAN JUAN, PUERTO RICO.—Completion of the air and naval base on Isla Grande, an engineers' dream which often was a nightmare, was announced by the navy. The base was built on mangrove swamps, some portions of which were 28 feet under water. The tract now has been converted into solid land with an area of about 300 acres, making it "probably the most complete and modern naval air base under the American flag," the navy said.

Designed originally to cost \$9,000,000, the base was expanded during construction until it finally cost \$30,000,000.

Farm Notes

The U. S. department of agriculture has announced a program for diversion of up to 5,000,000 bushels of Irish potatoes into starch and dextrine.

For roughage in feeding lambs, allow one half alfalfa and one half Johnson grass or Sudan hay. The hay should be green in color, well cured and free from mould.

SAFEWAY

YOUR CAR How to Get the MOST out of it

USE YOUR INSTRUMENTS

You can't drive "blind" in an automobile the way you can in an airplane with only instruments to guide you, but you can get a lot of help from the instrument panel in your car if you know how to read the dials properly.

Speedometer. Learn to glance at it frequently. Speed is deceiving, and today it is more important than ever to drive moderately.

Oil Gauge. Very important to watch. Learn the normal pressure for your car. Then, keep to moderate speed if pressure shows above normal. High pressure means (1) oil stiff with cold, (2) oil too heavy, (3) obstruction in oil line. If pressure is low, trouble may be (1) oil level low, (2) oil diluted, (3) pump out of order, (4) internal leak in system. If pressure is erratic, drive slowly to nearest service station.

Heat Indicator. Your engine should not vary from normal operating temperature except in heavy traffic, on bad roads or in mountains. Overheating may be caused by (1) insufficient liquid, (2) fan belt loose or broken, (3) frozen radiator, (4) obstruction cutting flow of air, (5) thermostat out of order, (6) internal engine trouble.

Ammeter. If indicator doesn't register zero with ignition off and no electrical equipment (such as radio) in use, a short probably exists somewhere. If pointer fails to move to plus side after engine is brought to a fair rate of speed, the most likely causes are (1) too many accessories in use at once, which is not harmful except over a long period, (2) generator stopped or out of order, (3) voltage regulator out of order.

Note: This is the eleventh in a series of articles based on the book, *Automobile User's Guide*, published by the Customer Research staff of General Motors. Next article: *Housekeeping Hints*.

In total war there are no trifles. Interesting proof of this is the fact that by eliminating manufacture of blackhead squeezers we shall save 110,000 pounds of steel.

CARDUI

What You Buy With WAR BONDS

The mess kit is one of the most important items in the Soldier's equipment. It consists generally of a pan, a plastic canteen and cup, a fork, knife and spoon, all in a canvas pack cover. The total cost runs up to about \$2.00.

Canteens and other items such as handles on knives and forks, formerly made of aluminum, are now plastic. Alloy has replaced stainless steel. You can buy many of these mess kits for our boys with your purchases of War Bonds and Stamps. Invest at least 10 percent of your income in War Bonds or Stamps every pay day and top the quota in your county. U. S. Treasury Department

God grant that not only the love of liberty but a thorough knowledge of the rights of man may pervade all the nations of the earth, so that a philosopher may set his foot anywhere on its surface and say, "This is my country."

—Benjamin Franklin
